Additional Information:

First Aid Measures	
Inhalation:	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
Skin Contact:	Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
Eye Contact:	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove contact lenses if easy to do so. Get medical attention if irritation occurs.
Ingestion:	Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

Storage

Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials, food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers.

Spillage

See SWP-19. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, absorb with an inert dry material and place in appropriate waste disposal container. If a large spill, stop leak if without risk. Prevent entry into sewers, water courses, basements or confined areas. Contain and collect spillage with non-combustible absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations.

Disposal of Substance & Contaminated Containers

Hazardous Waste	General Waste	Depot	Return to Supplier	Other
		√		

Additional Information: Dispose of via a licensed waste disposal contractor. Dispose of contents and containers in accordance with all local, regional, national or international regulations.

Is exposure adequately controlled	Yes √	No

Risk Rating Following Control Measures
